# Advancements in the Management of Lung Cancer

September 21, 2013

8.30am – 5.00pm

Le Meridien  
Kuala Lumpur

## Pantai Cancer Institute

The Pantai Cancer Institute, which was previously known as the Oncology Department, was established in 1981 and was one of the earliest private facilities for cancer treatment in Malaysia. In line with greater patient focused cancer treatment and a clear aim to be a complete cancer care center under one roof, the Pantai Cancer Institute now offers multifaceted cancer treatments and therapies, led by a team of Medical Oncologists and Clinical Oncologists who are accredited members of the International Society of Oncology.

**Pantai Cancer Institute**  
1st Floor, Block B  
Pantai Hospital Kuala Lumpur  
8, Jalan Bukit Pantai  
59100 Kuala Lumpur  
603.2296.0800 / 0838

## Keynote Speaker : Dr Robert Rintoul

Dr Robert Rintoul is a consultant respiratory physician with a special interest in lung cancer and mesothelioma. He undertook clinical training in Edinburgh and London and performed his doctoral research in Professor Tariq Sethi's laboratory in the University of Edinburgh. He is the lead clinician for thoracic oncology at Papworth Hospital, United Kingdom. Clinically, his major interest is in diagnosis and staging in lung cancer and he is expert in Endobronchial Ultrasound (EBUS) - a minimally invasive approach for mediastinal staging.

Part-funded by the NIHR Cambridge Biomedical Research Centre and the Comprehensive Local Research Network, Dr Rintoul is a Principal Investigator for several translational and basic science research projects in lung cancer and mesothelioma. Dr Rintoul is a member of the NCRI Lung Clinical Studies Group (CSG) and the Mesothelioma subgroup as well as being Chair of the Lung CSG Screening, Smoking Cessation and Early Diagnosis subgroup. He was recently a member of the NICE Lung Cancer Guidelines Development Group, the NICE Lung Cancer Quality Standards Development Group and the BTS interventional bronchoscopy guidelines group. He currently sits on the DH Lung Cancer and Mesothelioma Advisory Group.

Dr Rintoul is Vice-Chair of the Anglia Cancer Network Research Executive Group and is Deputy Director for Research and Development at Papworth Hospital, United Kingdom.
